*Gipsy bric sono dei mattoncini in tre formati cm.13x13 e cm.13x26, entrambi di altezza cm.6,8. La composizione dei tre pezzi forma una struttura murale decorativa, **non portante**.*

art. 569

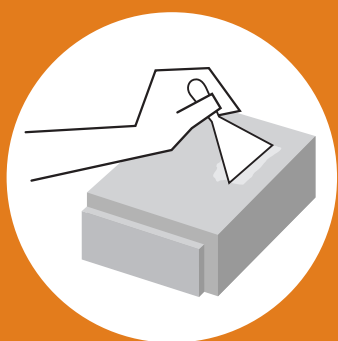

art. 570

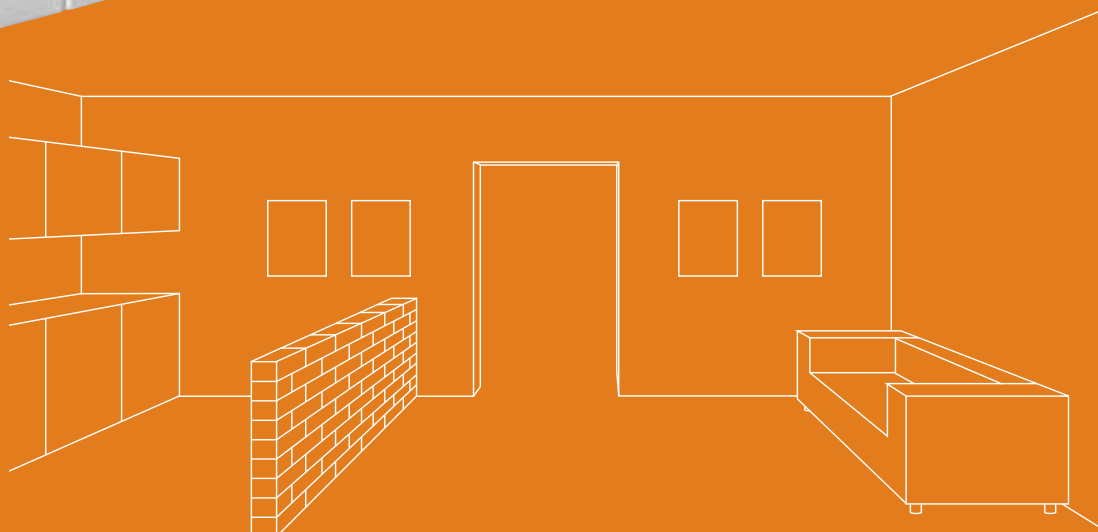

art. 571

I mattoncini vanno uniti semplicemente con un collante che va steso a spatola su entrambe le superfici:

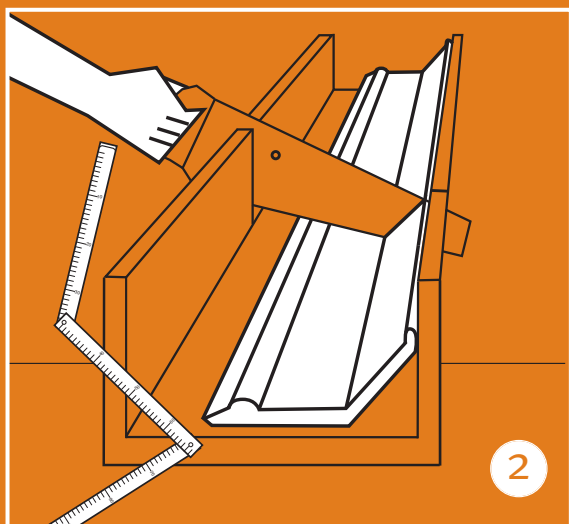

Si raccomanda di avere il piano di appoggio a livello e di controllare la costruzione in fase d'opera, in modo tale che sia in piano perfetto.

Consigli per l'installazione

Vi illustriamo i quattro passaggi fondamentali per una corretta installazione degli stucchi decorativi in gesso RAMA.

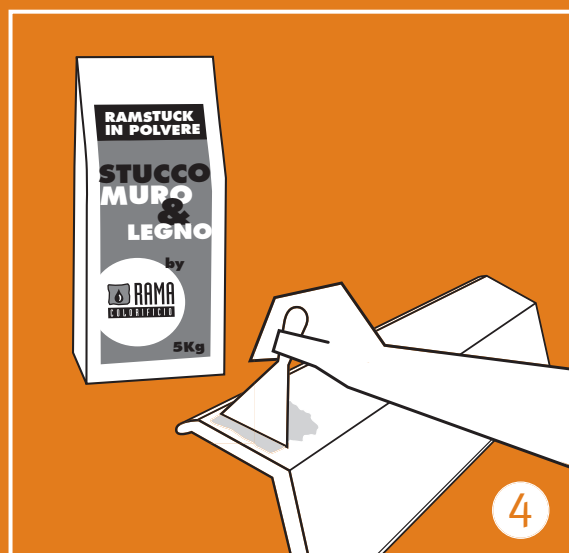

Per l'installazione di elementi modulari, come le cornici; che vengono vendute al metro lineare, occorre misurare lo spazio da decorare ed eventualmente tagliare i gessi.

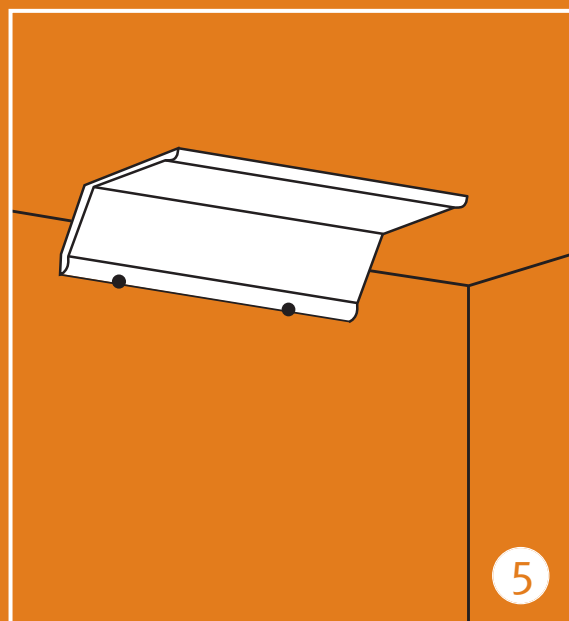

Il muro e l'elemento decorativo devono

essere preparati con del fissativo aggrappante ad acqua; che va applicato con un pennello direttamente sulla parete e sulle parti del gesso che vi aderiranno.

Miscelare lo stucco in polvere RAMSTUCK con acqua ottenendo un prodotto collante, da applicare direttamente sul gesso nelle zone di contatto tra questo e il muro.

Procedere all'installazione puntellando con due chiodini per battiscopa la parte inferiore del supporto, senza rovinare l'elemento decorativo.
